Ihsan Anwar

Aspiring Front-End Developer

Portfolio | GitHub

Location: Iqbal Town, Islamabad, Pakistan | Contact: +92 327 6508773

PROFESSIONAL SUMMARY

Aspiring and highly motivated Front-End Developer with hands-on experience in HTML, CSS, JavaScript, and beginner React projects. Demonstrates strong problem-solving skills, a keen eye for UI/UX design, and a passion for building responsive, interactive web applications. Quick learner, eager to contribute and grow through an internship opportunity in a dynamic development environment.

TECHNICAL SKILLS

- Languages & Technologies: HTML5, CSS3, JavaScript, React (Basic)
- Tools & Platforms: Git, GitHub, Vercel, Visual Studio Code
- Other Skills: Basic UI/UX Design, Form Validation, Quick Learner

PROJECTS

Sliding Portfolio

Built a responsive personal portfolio using HTML, CSS, and JavaScript, implementing sliding transitions and interactive elements to effectively showcase projects.

Login and Registration Form

Developed a responsive registration form with React, featuring robust form validation to ensure accurate user input and a seamless user experience.

Restaurant Landing Page

Designed and implemented a modern, responsive landing page for a restaurant using React and CSS, applying current design principles and interactive components to enhance user engagement.
